Representing: Ventura County Waterworks District Nos. 1, 16, 17, 19, and 38
County Service Area Nos. 29 (North Coast), 30 (Nyeland Acres), 34 (El Rio), Camarillo Airport, Todd Road Jail

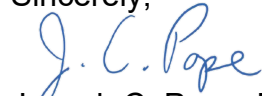

May 6, 2021

**NOTICE OF A MEETING OF THE
VENTURA COUNTY WATERWORKS DISTRICT NO. 1
MOORPARK CITIZENS' ADVISORY COMMITTEE**

NOTICE IS HEREBY GIVEN that a meeting of the Ventura County Waterworks District No. 1 Moorpark Citizens' Advisory Committee will be held **Thursday, May 13, 2021, from 3:30 p.m. to adjournment** via Zoom. To electronically join the meeting please follow the provided steps – At the specific time (3:30 p.m.) dial the number (669) 900-6833, when prompted enter the meeting ID 470 052 7072. You can also join the meeting by visiting this link - **Join Zoom Meeting** <https://us02web.zoom.us/j/4700527072>

Advisory Committee Members: Please contact the District Office by telephone at (805-378-3005), or by email at wspc@ventura.org, no later than May 12, if you are unable to participate on the call.

Sincerely,

Joseph C. Pope, Director
Water and Sanitation

AGENDA OF THE MEETING

IN ACCORDANCE WITH THE CALIFORNIA GOVERNOR'S EXECUTIVE STAY AT HOME ORDER AND THE COUNTY OF VENTURA HEALTH OFFICER DECLARED LOCAL HEALTH EMERGENCY AND BE WELL AT HOME ORDER RESULTING FROM THE NOVEL CORONA VIRUS, THE MOORPARK WATER AND SANITATION BUILDING IS CLOSED TO THE PUBLIC. TO FIND OUT HOW YOU MAY ELECTRONICALLY ATTEND THE CAC MEETING AND PROVIDE PUBLIC COMMENT PLEASE REFER TO "NOTICES" LOCATED ON PAGE 3 OF THIS AGENDA.

1. CALL TO ORDER
2. APPROVAL OF THE MINUTES OF THE APRIL 14, 2021 MEETING
3. PUBLIC COMMENTS - Members of the public may address the Citizens' Advisory Committee (CAC) on items of interest to the public that is within the subject matter jurisdiction of the Committee but does not appear on the agenda. With respect to agenda items, the public will be given an opportunity to address the Committee when the item is reached in the meeting.
4. DISTRICT STAFF REPORT
 - A. CAPITAL PROJECTS - The Capital Project Status Report provides regular reporting on the status of active capital projects within the District.
 - Desalter and Desalter Mitigation Projects Discussion
 - Stockton Reservoir CEQA Update
 - Reservoir Coating Projects
 - B. WATER QUALITY REPORT - A report regarding water quality complaints, if any, received by the District since the previous CAC meeting and how these complaints were resolved.
 - C. WATER SUPPLY CONDITIONS - An update on water supply conditions within the District, Southern California, and throughout the State.
 - D. FOX CANYON GROUNDWATER MANAGEMENT AGENCY (GMA) /LAS POSAS USERS GROUP (LPUG) UPDATE - An update on decisions and/or rulings by the GMA and LPUG which may impact the District.
 - E. CALLEGUAS MUNICIPAL WATER DISTRICT / METROPOLITAN WATER DISTRICT OF SOUTHERN CALIFORNIA UPDATE - An update on decisions and rulings by these agencies which may impact the District.
 - Update on Water Supplies – CY 2021 Presentation
 - F. AVENUES OF PUBLIC OUTREACH - An update on how the District is reaching out to its customers concerning water conservation.
 - G. BOARD LETTER TRACKER - AN UPDATE ON VENTURA COUNTY BOARD OF SUPERVISORS AGENDA ITEMS RELATED TO THE DISTRICT - A status report on items the District may be presenting or has recently presented, before the Ventura County Board of Supervisors.

- 5/18/2021 - Adoption of Resolution Continuing the Existing Water Standby Charge for Fiscal Year 2021-22 for Ventura County Waterworks District No. 1, Moorpark; Supervisorial District No. 4.

H. AN UPDATE ON THE BRIEF ON THE LAS POSAS VALLEY WATER RIGHTS COALITION ADJUDICATION - On March 27, 2018, a property-eminant domain case was filed by Las Posas Valley Water Rights Coalition against the Fox Canyon Groundwater Management Agency (GMA).

The plaintiff's landowner's complaint alleges that the GMA already has imposed pumping restrictions that violate their overlying groundwater rights as part of a plan to boost municipal pumping for urban areas.

I. BUDGET AND FINANCIAL REVIEW - An update on the budget and financial status.

5. DIRECTOR'S INFORMATIONAL ITEMS- Provides the opportunity for the Director to present items that are not within the subject matter of the District's Staff Report.

- Covid-19 Waived Fees Report
- Aged Report
- Urban Water Management and 2020 Water Shortage Contingency Plan Availability

6. COMMITTEE MEMBERS COMMENTS/FUTURE AGENDA ITEMS

7. ADJOURNMENT

****NOTICES:** The following information is provided to help you understand, follow, and participate in the Board meeting: Public Comments – Public comment is the opportunity for members of the public to participate in meetings by addressing the Citizens Advisory Committee in connection with one or more agenda or non-agenda items.

- **Observe the Citizens Advisory Committee meeting live at:**
<https://us02web.zoom.us/j/4700527072>
- **If you wish to make a comment on a specific agenda item, please submit your comment via email by 5:00 p.m. on the day prior to the Committee meeting. Please submit your comment to WSPC@ventura.org. Please indicate in the Subject Line, the Agenda item number (e.g., Item No. 3A). Your email will be read by the Water and Sanitation Director and placed into the record.**
- **If you are watching the live stream of the Committee meeting and would like to make a general public comment for items not on the day's agenda or to comment on a specific agenda item as it is being heard, please submit your comment to WSPC@ventura.org. Please indicate in the Subject Line, the Agenda item number (e.g., Item No. 3A). Every effort will be made to read your comment into the record, but some comments may not be read due to time limitations. Comments received**

after an agenda item will be made part of the record if received prior to the end of the meeting.

IN COMPLIANCE WITH THE AMERICANS WITH DISABILITIES ACT, IF YOU NEED SPECIAL ASSISTANCE TO PARTICIPATE IN THIS MEETING, PLEASE CONTACT CAYTLYN CAYLOR AT (805) 378-3005. REASONABLE ADVANCE NOTIFICATION OF THE NEED FOR ACCOMODATION PRIOR TO THE MEETING (48 HOURS ADVANCE NOTICE IS PREFERABLE) WILL ENABLE US TO MAKE REASONABLE ARRANGEMENTS TO ENSURE ACCESSIBILITY TO THIS MEETING.

DRAFT

CITIZENS' ADVISORY COMMITTEE VENTURA COUNTY WATERWORKS DISTRICT NO. 1 MINUTES OF THE APRIL 14, 2021 TELECONFERENCE MEETING

*(COVID-19 Stay Well at Home order in place during time of meeting)

COMMITTEE MEMBERS IN ATTENDANCE: John Newton, Roy Talley, Jason Flame

COMMITTEE MEMBERS ABSENT: Andy Waters, David Schwabauer

COMMITTEE MEMBER VACANCY: None

STAFF:

Scott Meckstroth, Deputy Director
June Kim, Engineering Manager
Ryan Lippincott, Engineering Manager
Jean Fontayne, Staff Services Manager
Caytlyn Caylor, Management Assistant

GUESTS: None

* * *

1. CALL TO ORDER

The meeting was called to order at 3:35 p.m.

2. APPROVAL OF THE MINUTES OF: Meeting on April 14, 2021

Vote: Yeas (3) Nays (None); Abstained (0) For April 14, 2021 minutes;
Absence (2); Motion carried-.

3. PUBLIC COMMENTS –

No public comments

4. DISTRICT STAFF REPORT -

A. CAPITAL PROJECTS –

o Desalter and Desalter Mitigation Projects Discussion

- o Next efforts are anticipated to include a modeling study and preliminary desalter design.
- o Mr. Pope has spoken to Dave Klotzle City of Camarillo Public Works Director, Camarillo Desalter has twice as much capacity as their original design and is not fully utilizing the facility. Water and Sanitation staff Dave Hazen, Scott Meckstroth, and Mr. Pope would like to hold a meeting with Dave Klotzle to fully utilize Camarillo's site.
- o The purpose of this meeting would be to see if there is an opportunity to prolong the life of Camarillo's Desalter by sending salty water down the diversion pipe and prolonge the life of W&S Desalter and Camarillo.

- Storm Water Capture and Groundwater Recharge Project
 - No new updates
 - Stockton Reservoir CEQA Update
 - Environmental Clearance completed. Working on Legal Description of Permanent Easement.
 - Grimes Canyon Reservoir (formerly Home Acres)
 - No new updates
 - On hold - staff support not available at this time
 - Left-turn Lane on HWY 118
 - Roads & Transportation is preparing MND for June. Environmental approval is anticipated from June to December. The anticipated construction start is for March 2022
 - Water Master Plan and UWMP Update
 - No new updates
 - Well 95 MCC Replacement
 - On hold – staff support not available at this time
 - Well 97 Re-Drill Project
 - The consultant is working on the well design and drilling bid documents, Water and Sanitation is preparing permit applications
- B. WATER QUALITY REPORT –
7 water quality complaints (4 pressure, 1 color, 1 odor, 1 other from March 11 – April 12)
- C. WATER SUPPLY CONDITIONS -
 - Drought monitor for the state shows the transition from moderate drought up to exceptional drought levels. The state major reservoirs condition and holding at 50% capacity at this time.
- D. FOX CANYON GROUNDWATER MANAGEMENT AGENCY (GMA) / LAS POSAS USERS GROUP (LPUG) UPDATE –
 - No updates at the time of meeting
- E. CALLEGUAS MUNICIPAL WATER DISTRICT / METROPOLITAN WATER DISTRICT OF SOUTHERN CALIFORNIA UPDATE –
 - CMWD completed draft for Urban Water Management Plan and sent a memo out to interested parties on the reduced reliance on the Delta for water supply.

- F. AVENUES OF PUBLIC OUTREACH -
 - Annual consumer reports will be coming out by July 1st deadline.
- G. BOARD LETTER TRACKER –
 - One agenda item for Board approval on College 1 and 2 and Gabbert Reservoirs. These items will go to Board on April 20 and the contract will be awarded.
- H. AN UPDATE ON THE BRIEF ON THE LAS POSAS VALLEY WATER RIGHTS COALITION ADJUDICATION –
 - No new updates.
- I. BUDGET AND FINANCIAL REVIEW –
 - Reports are through end of April. Budget is on track and in great shape.
- 5. DIRECTOR'S INFORMATIONAL ITEMS
 - Covid-19 Waived Fees – beginning in March 2020 through March 2021 the total of waived fees for District 1 is (\$834, 967)
 - Aged Report - \$199,319.02 in unpaid bills over 61 days late
- 6. COMMITTEE MEMBER'S COMMENTS/FUTURE AGENDA ITEMS
 - Committee Member asked if 2020 Urban Water Management Plan update could be presented/generalized by Joe. Scott recommended it to be a line item for a 5 minute summary for next CAC meeting. Will be on next agenda.
 - Committee Member asked where Desalter Project had to be to qualify for funding in regards to federal, etc. Scott did not have that answer at that time but will talk with Joe and it will be presented next CAC meeting.
- 7. ADJOURNMENT
 - Meeting adjourned at 3:59 p.m.

4. DISTRICT STAFF REPORT

A. CAPITAL PROJECTS - The Capital Project Status Report provides regular reporting on the status of active capital projects within the District.

- Desalter and Desalter Mitigation Projects Discussion
- Stockton Reservoir CEQA Update
- Reservoir Coating Projects

April 2021

ACTIVE CAPITAL PROJECTS REPORT - WATER AND SANITATION DEPARTMENT

District	Project Name	Project Manager	Phase	Phase % Complete	Proposed Funding	Remarks
1	MWRF Desalter Project	J. Kim	Planning	0	Prop 84 Grant Funding with Capital Fund Match	Next efforts are anticipated to include a modeling study and preliminary desalter design.
1	Moorpark Stormwater Diversion & Groundwater Recharge Project	J. Kim	Design	25	FSA Grant	R2 is preparing draft design of Storm Water Capture. NBWL is preparing filed infiltration study of the ponds in May 2021.
1	Stockton Reservoir	J. Kim	Easement Acquisition	75	Capital Funds	Environmental Clearance completed. Legal Description of Permanent Easement prepared. RES Work order issued for Permanent Easement acquisition.
1	Water Master Plan and UWMP Update	R. Lippincott	UWMP Report	90	Capital Funds	UWMP has been sent out for public review. Anticipated Public Hearing and Board Meeting for approval in June 2021.
1	Left-turn lane on HWY 118 to Plant Entrance	J. Kim	Design	75	Capital Funds	Roads&Transportation is preparing MND for public review. Anticipated construction in Fall 2022
1	Well 97 Re-Drill Project	J. Kim	Design	25	Capital Funds	Consultant is working on well design & drilling bid documents. W&S is preparing permit applications.
1	MWRF BESS	H. Arredondo	Design	10	CPUC's Self-Generation Incentive Program	Design-Build is working on 30% design and permitting applications.
1	Well 95 Booster Pump Replacement	H. Arredondo	Procurement	75	O&M Funds	Specs and RFQ issued. Awaiting bids to perform work.
1	Water Meter Test Bench	H. Arredondo	Procurement	75	O&M Funds	Advertising for Bids.
1	Well 15 Rehabilitation	H. Arredondo	Construction	50	O&M Funds	Well brushing complete. Well disinfection and new well pump installation being scheduled.
1	Well 95 MCC Replacement	H. Arredondo	Design	75	Capital Funds	On hold - Until other projects in construction start
1	Grimes Canyon Reservoir (formerly Home Acres Reservoir Project)	R. Lippincott	Planning	5	Capital Funds	Plan on design in 2022

4. DISTRICT STAFF REPORT

B. WATER QUALITY REPORT - A report regarding water quality complaints, if any, received by the District since the previous CAC meeting and how these complaints were resolved.

*Verbal report provided by Water and Sanitation Director

C. WATER SUPPLY CONDITIONS – An update on water supply conditions within the District, Southern California, and throughout the State.

*Reports provided on next pages

Update on Water Supplies – CY 2021

Are we in a Drought?

YES!

U.S. Drought Monitor West

April 20, 2021
(Released Thursday, Apr. 22, 2021)
Valid 8 a.m. EDT

Intensity:

The Drought Monitor focuses on broad-scale conditions. Local conditions may vary. For more information on the Drought Monitor, go to <https://droughtmonitor.unl.edu/About.aspx>

Author:

Richard Heim
NCEI/NOAA

droughtmonitor.unl.edu

Is the US Drought Monitor representative of water supply availability?

NO!

But illustrates challenges in periods of low precipitation and dry conditions.

METROPOLITAN STATEMENT ON COLORADO RIVER RESERVOIR CONDITIONS

Jeffrey Kightlinger, general manager of the Metropolitan Water District of Southern California, issues the following statement on the Bureau of Reclamation's latest 24-month study on Colorado River system reservoir conditions.

“The past 10 years of Colorado River runoff have been the driest in the river’s history, exacerbating a drought that spans more than two decades. Despite these conditions, we’ve been able to avoid shortages by working with our partners throughout the Lower Basin states to reduce water deliveries from Lake Mead. Over the last decade, our collective conservation and storage programs have added nearly 50 feet to water levels in the reservoir. Unfortunately, it appears that continued hot and dry conditions throughout the Basin mean a shortage declaration can no longer be avoided. While Metropolitan’s supplies are not reduced in a tier 1 shortage, if Lake Mead’s level continues to drop, we are prepared to make our required contributions.

“Until then, we’re being careful about how much of our stored water we draw from Lake Mead, even as we face drought conditions at home as well. Because of critically dry conditions in California’s Sierra Nevada – Metropolitan’s other source of imported supplies – we’re relying more heavily on the Colorado River this year. But that reliance has not come at the expense of Lake Mead. Instead, we’ve been able to fill the Colorado River Aqueduct thanks to our partnerships forged with agricultural agencies along the river. The water saved through our programs funding partial land fallowing, crop

Water Use Efficiency... Rain or Shine!

2021 Water Supply Message Points

Imported Water Supply Conditions – Dry

- Southern California's two main sources of imported water — the Colorado River Basin and Northern California — continue to face dry conditions.
- Heading into a second consecutive dry year, as of late March, the Northern Sierra snowpack water content was only 63% of average.
- On March 23, the CA Department of Water Resources reduced the 2021 State Water Project allocation from 10 percent to 5 percent. A final 2021 SWP allocation should be announced closer to May.
- Lake Oroville, an essential reservoir for the State Water Project (SWP) located north of the Sacramento Delta, started the year at a precariously low level. San Luis Reservoir, located south of the Sacramento Delta, does have a moderate amount of SWP water stored from the previous year that softens the impact of a low water level in Lake Oroville.
 - State Water Project (SWP) – as of March 23:
 - Lake Oroville: 39% of capacity
 - San Luis Reservoir: 56% of capacity
- Many cities and water purveyors in southeast Ventura County utilize supplies distributed by Calleguas to meet total retail demands. Calleguas is substantially reliant on SWP supplies, however a small portion of Colorado River supplies can be delivered to the service area.
- In 2021, most of Southern California will likely maximize use of Colorado River supplies. This will greatly assist areas that are more dependent on SWP supplies – like Ventura County. It is possible that Calleguas may receive a small portion of Colorado River supplies this year. It is important to note the snowpack that feeds into the Colorado River is also below average for 2021.
 - Colorado River – as of March 23:
 - Lake Mead: 40% of capacity
 - Lake Powell: 37% of capacity

Prudent planning and ratepayer investments have built a critical drought buffer for SoCal region

- **Droughts are not new to Southern California.** Following the protracted 1987-92 drought, Southern California water agencies redoubled efforts to develop programs

Rev 3/23/21

designed to buffer against the social and economic impacts of water shortages due to drought and emergency conditions. The most recent 2012-2016 drought spurred a massive investment in conservation programs and turf removal. Over \$350 million was devoted to turf removal rebates during that period with approximately 165 million square feet of lawn removed. It is also noteworthy to recall that the State imposed – for the first time in California history – emergency drought regulations and community specific water conservation targets. Record breaking storms in 2017 pulled most of California out of drought and significantly improved imported water conditions.

- **Water supply availability will not be impacted in 2021.** The primary reasons for avoiding immediate water restrictions are 1) ongoing efforts by water users that have dramatically lower demand through various water conservation and recycled water programs and 2) significant rate payer investments in storage made in recent years to capture supplies in wet years.
- **There is a significant amount of imported water stored in reserves for multiple dry years.** Over the past 30 years, Southern California rate payers invested more than \$5 billion in regional storage and infrastructure improvements.
 - Dry year imported water storage reserves registered their highest level in history at 3.2 million acre-feet at the end of CY 2020
 - Ratepayer investments that allowed for additional storage in Lake Mead
 - Pump station upgrades that enable delivery of a small portion of Colorado River supplies into Ventura County
 - Diamond Valley Lake which doubled the Southland's reservoir storage capacity
 - Groundwater storage programs in the Central and Coachella Valleys
 - Inland Feeder, a 44-mile water line that provides additional delivery capacity that can be used during wet winters when water is available

Increased water use efficiency is critical for future water reliability

- While mandatory cutbacks are not anticipated this year, area residents and businesses should remain mindful of their water use and implement feasible water efficiency measures, rain or shine. This continued focus on water-wise practices will help extend our local reserves in the event dry conditions persist in the years to come.
- Water users are encouraged to continue take advantage of the numerous rebate programs available to further minimize their water use while saving money.
- Residential rebates are available for high efficiency toilets and clothes washers, weather-based irrigation controllers and soil moisture sensors, low flow sprinkler heads, rain barrels, and turf removal. Various rebates for commercial customers are also available.
- Visit bewaterwise.com for details about available rebates and tips on how to save water.

Local Retail Messaging

- Status of local groundwater supplies, other local supply projects & programs (e.g., recycled water, groundwater desalting, IPR, DPR, etc.).
- Long-term water use objectives rolling out from the State (implementation of “Make Conservation a CA Way of Life”).
- Application of local water conservation ordinances (stages, measures, etc.).

4. DISTRICT STAFF REPORT

F. AVENUES OF PUBLIC OUTREACH - An update on how the District is reaching out to its customers concerning water conservation.

Public Information, County of Ventura AGENCY

Income eligible households who have been financially impacted by COVID-19 and need help with unpaid rent and utilities can now check eligibility and apply at HousingIsKey.com or call 833-430-2122.

4. DISTRICT STAFF REPORT

G. BOARD LETTER TRACKER - AN UPDATE ON VENTURA COUNTY BOARD OF SUPERVISORS AGENDA ITEMS RELATED TO THE DISTRICT - A status report on items the District may be presenting or has recently presented, before the Ventura County Board of Supervisors.

- 5/18/2021 – Adoption of Resolution Continuing the Existing Water Standby Charge for Fiscal Year 2021-22 for Ventura County Waterworks District No. 1, Moorpark; Supervisorial District No. 4

4. DISTRICT STAFF REPORT

H. AN UPDATE ON THE BRIEF ON THE LAS POSAS VALLEY WATER RIGHTS COALITION ADJUDICATION -
On March 27, 2018 a property-eminant domain case was filed by Las Posas Valley Water Rights Coalition against the Fox Canyon Groundwater Management Agency (GMA).

The plaintiff's landowner's complaint alleges that the GMA already has imposed pumping restriction that violate their overlying groundwater rights as part of a plan to boost municipal pumping for urban areas.

2020 Urban Water Management Plan Update and Water Shortage Contingency Plan Development

Ventura County Waterworks District No. 1

2020 Urban Water Management Plan

Purpose

- Required by Urban Water Management Act effective since 1983
- Ensure adequate water supplies are available to meet existing and future water demands for the next 20 years
- Meeting the water conservation targets set by Senate Bill x7-7

Who Must Prepare a UWMP?

- Every urban water supplier who which produces over 3,000 AF/year and serves over 3,000 connections

UWMP

- Updated every five years
- Submitted to the California Department of Water Resources by July 1, 2021
- Qualifies District for existing and future grants

2020 Update New Requirements

- Drought Risk Assessment (DRA) and the Five Consecutive Dry-Year Water Reliability Assessment
- Standalone Water Shortage Contingency Plan
- Seismic Risk Analysis
- Energy Use Information
- Water Loss Reporting for Five Years
- Consistency with Groundwater Sustainability Plans
- Lay Description of Plan
- Water Use Efficiency and Conservation: VCWWD No. 1 must demonstrate actual water use, as compared to the previously established 2020 target.

2020 Water Demand/Supply

(In Acre-Feet per Year)

<i>Demand</i>	<i>2020</i>	<i>% of Total</i>
M&I	7,260	71 %
Agricultural	1,997	20 %
Recycled Water	941	9 %
<i>Total Demand</i>	10,198	100 %

<i>Supply</i>	<i>2020</i>	<i>% of Total</i>
Groundwater	1,966	20 %
Imported Water	7,112	71 %
Recycled Water	941	9 %
<i>Total Supply</i>	10,019	100 %

Projections of “Normal Year” Supply/Demand

(In Acre-Feet per Year)

Projected Demand	2025	2030	2035	2040	2045
Recycled Water	1,600	1,800	2,000	2,200	2,200
M&I	7,452	7,629	7,828	8,007	8,205
Agricultural	2,050	2,099	2,154	2,203	2,257
Projected Total Demand	11,102	11,528	11,982	12,410	12,662

Projected Supplies	2025	2030	2035	2040	2045
Purchased or Imported Water (a)	7,307	2,534	2,787	3,015	3,267
Groundwater (not desalinated)	2,195	2,195	2,195	2,195	2,195
Recycled Water	1,600	1,800	2,000	2,200	2,200
Desalinated Water - Groundwater	0	5,000	5,000	5,000	5,000
Projected Total Supply	11,102	11,529	11,982	12,410	12,662

NOTES: Imported Water volume was calculated based on domestic water demands less groundwater supply and desalinated groundwater supply as applicable.

(a) Imported water does not include surplus water. Surplus water is discussed in Chapter 7 as part of the reliability analysis

Projections of “Normal Year” Supply/Demand (In Acre-Feet per Year)

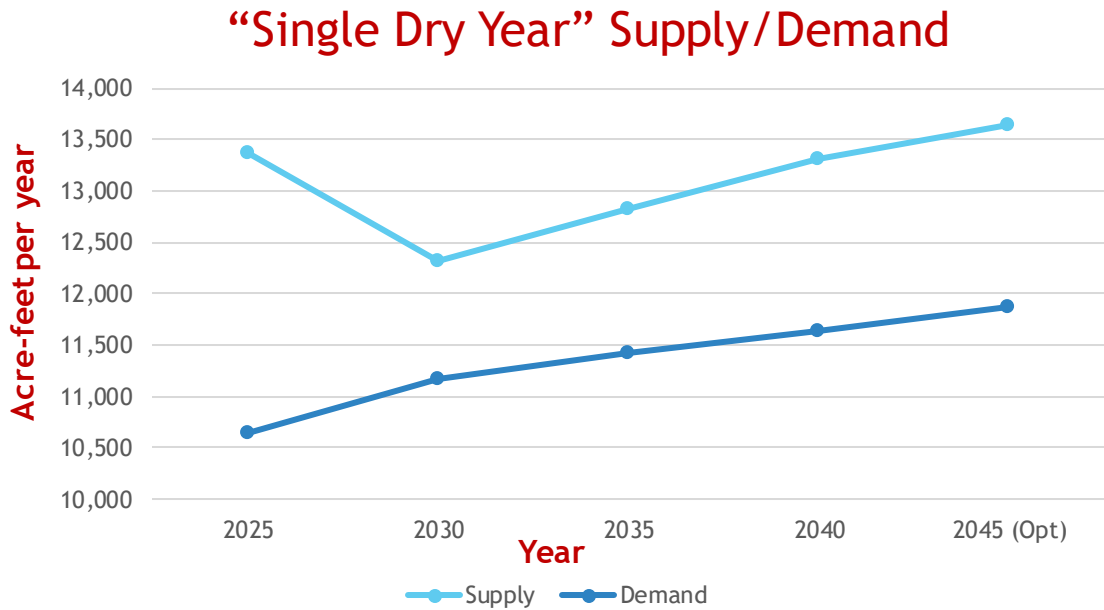

(Matching Supply and Demand)

<i>Projected Demand</i>	<i>2025</i>	<i>2030</i>	<i>2035</i>	<i>2040</i>	<i>2045</i>
Projected Total Demand	11,102	11,529	11,982	12,410	12,662

<i>Projected Supplies</i>	<i>2025</i>	<i>2030</i>	<i>2035</i>	<i>2040</i>	<i>2045</i>
Projected Total Supply	11,102	11,529	11,982	12,410	12,662

Projections of “Single Dry Year” Supply/Demand

(In Acre-Feet per Year)

<i>Projected Demand</i>	2025	2030	2035	2040	2045
Projected Total Demand	10,649	11,175	11,415	11,632	11,870

<i>Projected Supplies</i>	2025	2030	2035	2040	2045
Projected Total Supply	13,367	12,315	12,818	13,314	13,643

Projections of “Multiple Dry-Year” Supply/Demand

(In Acre-Feet per Year)

<i>Projected Demand</i>	<i>2025</i>	<i>2030</i>	<i>2035</i>	<i>2040</i>	<i>2045</i>
Projected Total Demand	10,459	11,073	11,292	11,502	11,742

<i>Projected Supplies</i>	<i>2025</i>	<i>2030</i>	<i>2035</i>	<i>2040</i>	<i>2045</i>
Projected Total Supply	13,535	12,373	12,891	13,377	13,701

Water Shortage Contingency Plan

Water Shortage Contingency Plan Levels		
Shortage Level	Percent Shortage Range	Water Shortage Condition
Permanent	--	The District has adopted permanent conservation methods such as water saving devices and prohibited water runoff.
1	Up to 10%	The District will initiate a public information campaign to increase awareness of water conservation measures specified in the District's Rules and Regulations. Customers are expected to perform voluntary water use reductions and adhere to on-going water conservation measures.
2	Up to 20%	The District will expand the public information campaign and step-up enforcement of water conservation measures specified in the District's Rules and Regulations. It is mandatory for Customers to implement water use reductions and adhere to on-going water conservation measures.
3	Up to 30%	This stage requires additional mandatory water conservation actions.
4	Up to 40%	This stage requires additional mandatory water conservation actions, such as water rationing for specific uses.
5	Up to 50%	This stage requires additional mandatory water conservation actions, such as water rationing for all customers.
6	>50%	This stage requires additional mandatory water conservation actions, such as increased water rationing for all water customers, no outdoor water use, etc.

Water Conservation and Sustainability

- Water conservation, public outreach, and education
- Tiered water rates
- Meter replacement program
- Collaborate with MWD/Calleguas to offer rebate programs
- Advanced Metering Infrastructure (AMI)
- Moorpark Desalter Project
- Stockton Reservoir Project

Public Hearing and Board Adoption: June 22 Board Meeting
**2020 Urban Water Management Plan and Water Shortage
Contingency Plan for VCWWD No. 1**

QUESTIONS?

Meeting Senate Bill x7-7 Water Conservation Targets

- Senate Bill x7-7 Water Conservation Act of 2009
- 20% water use reduction by year end of 2020
- Confirmed 2020 Target: 194 gallons per capita per day (GPCD)
- 2020 Actual water usage **173** GPCD

6. COMMITTEE MEMBERS COMMENTS/FUTURE
