# **TRAFFIC IMPACT MITIGATION FEES**

## **(VENTURA COUNTY ORDINANCE CODE Section 4246)**

Effective: January 8, 2002

### **GENERAL INFORMATION**

#### **Background**

Several events during the last fifteen years have impacted the ability of the County of Ventura to fund roadway and highway improvements required as a result of new development. Ventura County Ordinance 4246 established the Traffic Impact Mitigation Fee to fund these improvements. The Ordinance became effective January 8, 2002.

#### **Why?**

The fee provides a method of assessing on a project by project basis, a “fair share” portion of the cost of the projected road improvements in the County unincorporated area. Without the Traffic Impact Mitigation Fee, a project proponent might be expected to pay a disproportionate amount, be delayed indefinitely, or alternatively, there would be no funding for such projected road improvements.

#### **Affected Area**

The Ordinance affects all development projects in the unincorporated area the increase traffic. The County has been divided into fourteen districts. The fees vary amongst these districts depending on the number of projects to be funded. If the project is in the Area of Interest of a city, an additional fee to compensate for impact on city streets may be required. Projects located in cities, where there is a reciprocal traffic impact mitigation agreement in effect, may be required to pay a county fee. Reciprocal agreements are currently in effect with cities of Oxnard, Camarillo, and Agoura Hills.

[\*\*See District Map Index\*\*](#)

#### **When Collected**

The fee will be collected prior to the issuance of the Building Permit, unless no Building Permit is required. In such cases, the fee must be paid prior to the issuance of the zoning clearance.

[\*\*See District forms Index\*\*](#)

#### **Procedures**

The Traffic Impact Mitigation Fee is intended to be calculated and collected at the Transportation Encroachment Permit Counter located on the third floor in the County Government Center. You may also contact us at (805) 654-2055 and we can process

your payment and application by mail. (If a city fee is also required, you may have to contact the appropriate city.) Simple projects, such as a single-family dwelling unit can usually be handled quickly on a walk-in basis. If your project is complex, it may require traffic engineering analysis and two-three days to process.

Building and Safety will not issue a Building Permit unless the applicant can show proof of payment or verification that the project does not require payment of a Traffic Impact Mitigation Fee.

### **Common Questions**

1. Is there a traffic fee for adding on to my home? There is no fee for an addition to a residential unit, unless another dwelling unit results from the addition (e.g., a second dwelling unit).
2. Is there a traffic fee for a change of use? If the new use generates less or an equal amount of traffic, there is no fee. If the new use generates more traffic, the fee will be based on the difference in traffic generated, not the entire amount.
3. Do I have to pay the tabulated values? No, you may have a traffic study prepared by an approved engineer, and calculate the fee on a per trip basis. The per trip fee amount varies per district. You have the option of using either method, however, your traffic study must be reviewed and approved by the Public Works Agency.
4. Other questions, contact County Transportation Department at (805) 654-2055 or (805) 654-2047.

### **Calculation Examples**

#### **Example 1:**

**With a traffic study** - use ADT and Fee per trip.

To determine the County fee, the ADT generated by the project is multiplied by the applicable fee district per trip. For example, for a project located in district 10, the per trip fee is \$34.55. If the project ADT equals 100, the fee equals  $100 \times \$34.55 = \$3,455.00$ .

#### **Example 2:**

**Without a traffic study** - use tabulated values.

The Planning Department will determine the land use category, and the fee will be calculated using the applicable district fee. For example, if a project description consists of ten single-family dwellings in district 10, the fee equals  $10 \times \$415.00 = \$4,150.00$ .

[See District Map Index](#)  
[See District forms Index](#)

# **TRAFFIC IMPACT MITIGATION FEES**

## **(VENTURA COUNTY ORDINANCE CODE Section 4246)**

Effective: January 8, 2002

### **LAND USE CATEGORY EXPLANATIONS**

#### **Example of Land Use Category Explanations:**

(Note: This is a partial listing)

**Single Family** – Single family residential dwelling unit.

**Other Housing** - All other residential development including but not limited to duplex, triplex, second dwelling units, farm worker or caretaker units, condominiums, etc.

**General Commercial Retail** - Arcades, apparel shops, auto dealers, convenience markets, discount stores, hardware or paint stores, health clubs, gymnasiums/spas, lumber yards, private schools, retail outlets, shopping centers, specialty stores, supermarkets, truck stops, wholesale stores, hotel - convention center.

**General Industrial** - Manufacturing, repair and reconditioning facilities, agricultural processing or packaging plants, wineries, laboratories.

**General Office** - General offices, insurance offices, lending offices, real estate offices, stockbroker or financial advisor, banks, medical, dental, veterinary offices.

**Food Service** - Restaurants, cafes, cafeterias, bars, taverns, nightclubs. Food service is subdivided as follows:

Quality - turnover rates one hour or greater, generally do not serve breakfast.

High turnover/sit down - Turnover rates less than one hour, generally open for breakfast, lunch and dinner, often belong to a chain organization.

Fast Food - Large carry out clientele, extended hours of service, such as Taco Bell, Burger King, McDonalds (with or without drive-thru).

#### **\* Measurement Unit Notes:**

1. DU = Dwelling Unit
2. TSF = Thousand square feet of gross building area, or portion thereof
3. VFS = Vehicle Fueling Station
4. Person = Student, pupil, client, or patient served
5. ADT = Average Daily Traffic
