STANDARD PERMIT CONDITIONS

- 1. Grading shall be in accordance with:
 - a. Ventura County Building Code (VCBC) Appendix J, Latest Edition,
 - b. Ventura County Public Works Agency (VCPWA) Grading Permit Conditions, General Grading Notes, and Approved Grading Plans,
 - c. Standard Specifications for Public Works Construction (SSPWC),
 - d. Ventura County Standard Land Development Manual & Specifications and any supplemental conditions if applicable.
- 2. The Permittee shall call for inspection by the Building Official at all required stages of work with a minimum 48-hours notice. The Permittee shall obtain approval of all stages of work by the Building Official prior to proceeding with the next stage of work. Work stages are identified below as described in VCBC:
 - a. Pre-grade
 - b. Initial
 - c. In progress
 - d. Rough grade
 - e. Final grade
- 3. The permittee shall be responsible for determining the existence and location of any existing underground facilities.
- 4. An excavator planning to conduct an excavation shall notify UNDERGROUND SERVICE ALERT—SOUTHERN CALIFORNIA (toll free at 811) at least two working days, and not more than 14 calendar days, before beginning that excavation. The excavator shall obtain a DigAlert ticket requesting the utility owners to mark or otherwise indicate the location of their subsurface facilities and shall renew ticket(s) as required to maintain validity throughout the duration of grading activities. The excavator shall determine the location and depth of all utilities, including all service connections, which have been marked by the respective owners and which may affect or be affected by its operations. The excavator shall take all necessary measures to protect all utilities and structures found at the site. (Ref: California Government Code Section 4216.)
- 5. Construction inspection deposits shall be made in accordance with the Board of Supervisor's adopted Fee and Deposit Schedule. The permittee shall pay the actual costs (including overhead) for services rendered. If at any time the actual costs exceed the deposits, the permittee shall pay the balance due before proceeding with further work. Failure to remit payment when due may result in the County issuing a "Stop Work Notice". Deposits not used will be refunded to the permittee at time of completion of all required work.
- 6. A preconstruction/pre-grade conference of all interested parties shall be held prior to any construction or grading. Any work performed under this permit prior to conducting a pre-grade meeting will be subject to whatever action including restoration to existing conditions before work was begun, that the County of Ventura deems necessary to inspect, correct and/or approve said work.
- 7. This permit is valid only to the extent of Ventura County Building Code. Permits and consent required by other interested Agencies and consent of the underlying fee owner of easement and that of easement holders shall be the responsibility of the permittee. The permittee shall be responsible for obtaining all necessary permits and permissions from affected property owners, public agencies, and others.
- 8. If the owner wishes to change any technical consultants, grading shall cease until a new technical consultant assumes and accepts responsibility for the grading.
- 9. If the property subject to this permit changes ownership, the seller shall notify the Building Official in writing of the pending transfer and pay any outstanding permit fees. The grading shall cease until the new owner contacts Land Development Services to transfer the permit to the new owner and deposit permit fees.
- 10. Any deviation from the approved grading plans requires prior approval by the Building Official. The permittee shall submit a change order application and revised plans for review and approval by Land Development Services, unless the Building Official provides prior approval for a minor field adjustment to be documented on the "As-Built" drawings.
- 11. Prior to the "Notice of Completion" all grading disturbed areas must be stabilized and slopes vegetated with 70% coverage using native vegetation, where practical.

Project Name

SW Form

MINIMUM BEST MANAGEMENT PRACTICES FOR ALL CONSTRUCTION SITES

Prior to the commencement of any clearing, grading, or excavation, contractors of projects with construction activities shall prepare this best management practices (BMPs) worksheet on the form provided herein. The completed SW Form is required to be available at the project site throughout construction.

The purpose of implementing BMPs is to effectively prohibit the entry of pollutants from the construction site into the storm drain system during construction. Erosion and sediment source control BMPs should be considered for both active and inactive construction areas. BMPs for wind erosion and dust control are also included. The BMPs may require modification as the project progresses and as conditions warrant.

The BMPs shall be implemented in accordance with the National Pollutant Discharge Elimination System (NPDES) Ventura Countywide Stormwater Municipal Permit No. CAS004004 (Order R4-2021-0105) dated July 23, 2021.

The applicant/owner is responsible for ensuring that all project contractors and subcontractors implement all applicable BMPs.

Project Information (as applicable) Assessor Parcel Number: Grading Permit No.: Building Permit No.: Conditional Use Permit No.: Location: General Description: Construction Start Date: Construction Completion Date: Disturbed Area in Acres:

Best Management Practices - BMPs

Complete the following table. The BMPs listed shall be used unless determined not applicable or inadequate. Additional BMPs may apply and should be added to the bottom of the table. BMP descriptions and details can be downloaded from the California Stormwater Handbooks at www.casqa.org or Construction Site Best Management Practices (BMP) Manual https://dot.ca.gov/programs/construction/storm-water-and-water-pollution-control/manuals-and-handbooks.
