

SW Form

MINIMUM BEST MANAGEMENT PRACTICES FOR ALL CONSTRUCTION SITES

Prior to the commencement of any clearing, grading, or excavation, contractors of projects with construction activities shall prepare this best management practices (BMPs) worksheet on the form provided herein. The completed SW Form is required to be available at the project site throughout construction.

The purpose of implementing BMPs is to effectively prohibit the entry of pollutants from the construction site into the storm drain system during construction. Erosion and sediment source control BMPs should be considered for both active and inactive construction areas. BMPs for wind erosion and dust control are also included. The BMPs may require modification as the project progresses and as conditions warrant.

The BMPs shall be implemented in accordance with the National Pollutant Discharge Elimination System (NPDES) Ventura Countywide Stormwater Municipal Permit No. CAS004004 (Order R4-2021-0105) dated July 23, 2021.

The applicant/owner is responsible for ensuring that all project contractors and subcontractors implement all applicable BMPs.

Best Management Practices - BMPs

Complete the following table. The BMPs listed shall be used unless determined not applicable or inadequate. Additional BMPs may apply and should be added to the bottom of the table. BMP descriptions and details can be downloaded from the California Stormwater Handbooks at www.casqa.org or Construction Site Best Management Practices (BMP) Manual <https://dot.ca.gov/programs/construction/storm-water-and-water-pollution-control/manuals-and-handbooks>.

Table A. Minimum BMPs for All Construction Sites

BMPs Selected <i>Noted by IDs from the California Stormwater BMP Handbooks</i>		Use BMP		(If no, explain)
		Yes	No	
Site Management				
N/A	Housekeeping			
Erosion Controls				
EC-1/SS-1	Scheduling			
EC-2/SS-2	Preservation of Existing Vegetation			
WE-1	Wind Erosion Controls			
Sediment Controls				
(SE-1/ SC-1, SE-8/SC-8)	Perimeter Controls (e.g., Silt Fence, Sandbag Barriers, etc.)			
TC-1	Stabilized Construction Site Entrance/Exit			
Non-Stormwater Management				
NS-1	Water Conservation Practices			
NS-2	Dewatering Operations			
Waste Management				
WM-1	Material Delivery and Storage			
WM-3	Stockpile Management			
WM-4	Spill Prevention and Control			
WM-5	Solid Waste Management			
WM-8	Concrete Waste Management			
WM-9	Sanitary/Septic Waste Management			
Additional BMPs Selected
