

Traffic Scoping Form (TSF)

- Notes:
1. An approved TSF is required prior to submitting a Traffic Impact Study or Vehicle Miles Traveled Study.
 2. TSF may be used to establish Average Daily Traffic (ADT) for Traffic Impact Mitigation Fees (TIMF).

Project Information:

Name _____
Address _____

Proj. # _____
APN _____

Agent/Applicant Information:

Name _____
Phone _____

Address _____
Email _____

Consultant/Engineer Information:

Name _____
Phone _____

Address _____
Email _____

Type of Discretionary Application (check box):

- | | |
|---|---|
| ☐ Conditional Use Permit | ☐ Coastal Development Permit |
| ☐ Development Permit | ☐ Other _____ |

Project Description: (include operation hours, number of employees & guests, amount of parking spaces, daily trip count, square footage of site and warehouse, etc.)

VMT Analysis: The County offers a VMT Screening Tool at the following website:
<https://devapps.fehrandpeers.com/VenturaCountyVMTTool/>

Ventura County Transportation Model: Vehicle Miles Travelled, Vehicle Delay, Trip Origin/Destination, and Volume/Capacity data can be found at the following website:
<https://www.goventura.org/work-with-vctc/traffic-model/>

Land Use	Trip Gen Data			AM Peak Hour			PM Peak Hour		
	ft^2	Rate	ADT	In	Out	Total	In	Out	Total
Existing:									
Proposed:									

Project Trip Generation:

- Source/Manual (i.e. VC Tables, ITE, SANDAG, or other)

- Land Use Code

- Independent Variable (floor area, dwelling units, number of employees, etc.)

- Project Peak Hour Periods

- Trip Allowance (if applicable then justify)

- Calculate Existing / Proposed Peak Hour Trips & Average Daily Trips (ADT)

Proposed Study Intersections:

- _____
- _____
- _____
- _____
- _____

Proposed Study Roadway Segments:

- _____
- _____
- _____
- _____
- _____

The Following are Included with this Form (check box):

- | | |
|--|--|
| ☐ Site Map | ☐ VMT Screening Tool Report |
| ☐ Site Plan | ☐ ITE Trip Gen Table |
| ☐ Trip Distribution Exhibit | ☐ Other _____ |
