

# Important Announcement: Water Rate Increase and Public Hearing Update

## Waterworks District 19 ONLY

**CANCELLED Hearing Date: December 16, 2025 | 1:00 p.m.**  
**Board of Supervisors Hearing Room, Ventura County Government Center**  
**800 South Victoria Avenue, Ventura, CA 93009-1920**

The recently distributed **Waterworks District 19** Proposition 218 Notice advising customers of a 15% water rate increase and establishing a public meeting date and time before the Ventura County Board of Supervisors on December 16, 2025, has been **CANCELLED**. A revised rate recommendation will be presented at a future **Waterworks District 19** Citizens Advisory Committee meeting, followed by a new Proposition 218 Notice and a public meeting to be scheduled at a Board of Supervisors meeting in early 2026. Stay tuned for updates as we continue to work towards a fair and sustainable water rate plan for our community.

This decision follows extensive discussions with our water customers and consideration of several critical factors, including:

1. The District's recent application for a \$9,100,000 grant which would help defray capital costs if awarded by the State Water Resources Control Board.
2. An upcoming comprehensive planning effort that will schedule major infrastructure projects and costs over the next 10 years.
3. A detailed, 5-year rate analysis that will enable costs to be spread over a five-year period, allowing the District to continue to reliably provide the highest quality drinking water to customers, while leveraging all available grant resources and low-interest loan opportunities.

Thank you for your understanding and continued support.
