- 4. DIRECTOR'S INFORMATION ITEMS
 - A. BUDGET AND FINANCIAL REVIEW An update on the budget and financial status of the District.
 - Healthy reserve on the Sewer Budget \$4.9 Million.

Minutes of the Ventura County Waterworks District No. 1 Moorpark Citizens' Advisory Committee Meeting Ventura County Water and Sanitation Department Minutes of the August 14, 2025, Meeting Page 2 of 5

- An RFQ was turned in and we have a few firms that will be giving us bids. To review our systems and give us a long-term structural substantial plan.
- Is main trunk line in the Capital Improvements List? It is not.
- Introduction of Johnny Guardiola, New Superintendent of Wastewater.
- The Director of Water and Sanitation will be starting Sept. 2nd, Paul Chan.
- Reddy would like us to look at the assets to see how old our equipment is and do a depreciation analysis.
- What will we expect in a couple of months? In a couple of months, we
 will have a scope of work, with a consultant on board. We expect rates
 to be transparent. This shows where our financial balances are. This
 needs to be with the Water and the Sanitation side.
- B. CAPITAL PROJECTS The Capital Project Status Report provides regular reporting on the status of active capital projects within the District.
 - UV Disinfection-we are making progress. Structural design under review, replacing the chemical part of cleaning water with the UV prop. All recycled water will go through the UV prior to being sold to the Golf Courses.
 - Concrete Basin lining -On hold.
 - Groundwater recharge On hold.
 - Structure Storage Building-On hold.
 - MWRF Solar Expansion, powers our booster pump station 2-working on tax credits/grandfather agreements.
 - Left-turn Lane handled by our Roads Department-On hold.
 - Stockton Reservoir-Oon hold. Working with Real Estate. Acquisition of purchase of property has been difficult. Trying to work on alternative solutions

Construction of Well 99, we awarded the contract. In the early stages.

- Replacing Well 97-a higher priority project.
- Well 20 Rehab in design. Finalizing design. Preparing technical specifications.
- B. DEVELOPMENT PROJECTS Status Report provides updates on the status of active development projects within the District.
 - Hitch Ranch Recently sold the property. Continuing to build on that project.
 - Beltramo Ranch is under construction.
 - Caltrans Weight Station South side, Eastbound. They want to put in a weigh station. We are discussing sharing water main improvements.
 - High Street Depot moving along.

Minutes of the Ventura County Waterworks District No. 1 Moorpark Citizens' Advisory Committee Meeting Ventura County Water and Sanitation Department Minutes of the August 14, 2025, Meeting Page 3 of 5

Patriot project, seven commercial projects.

C. O&M UPDATE – WATER SALES TO BUDGET, SYSTEM STATUS AND AMI

- Operations & Maintenance-mild summer with increase water consumption.
- Import vs. Local water. Well 15 has put a significant dent in our ratio.
- Well 98, we have dialed it down, because it's getter more sand.
- Normally about 80% usage of Calleguas water is utilized. It is up to 88%.
 We have a priority of getting Well 20 up for use.
- Water production is up. We are close to what is feasible for recycled water.
- Main line leaks, none this year.
- Service leaks are down for 2025.
- AMI Report continues to add AMI Users. Make sure to set your alarm.
- Water Supply Conditions. State, all the reservoirs are at or above their historical mark.
- Projects List. Strategy is bringing up all the great things we are looking at doing. Well 99 Facility Design, Well 20 Rehab, Peach Hill, Tierra Rejada 1 & 2 recoating. Epoxy is coming off the roof. Stockton Reservoir (1/2-million-gallon tank), We are looking at extending that site.
- The College Trailer Park 18" ductile iron pipeline replacement. Today we would wrap the pipe in plastic, so the oxygen doesn't erode the pipe. Soil tests have been done.
- We have three tanks we're going to re-coat at Mountain Meadows. We have already coated the exterior.
- Home Acres Reservoirs, we have never been able to purchase any land.
 We have some old tanks that need new tanks. Grimes Canyon 744
 Zone, tank was built in 1975. We currently have bolted tanks. We would
 like to add the tanks in 770 Zone.
- Well 95 is offline. It was built in 1947. We are looking into doing the liner. Well 98 is online. Built in 1990 and has a louvered screen section and gravel is starting to come in, making it sandy. Long term the carbon steel will just keep corroding.
- Well 15 is online and produces 800 gallons a minute. Built in 1993.
 Sleeved in 2004 with stainless liner. If we drill in the back corner, we might be able to get back up to 1200 gallons a minute and could get more years.
- Main line replacement was identified in the 2008 Master Plan. 4" pipe we recommend 8" main lines. Fire flow standards. Since it is 65 years old, we do have service leaks.

Minutes of the Ventura County Waterworks District No. 1 Moorpark Citizens' Advisory Committee Meeting Ventura County Water and Sanitation Department Minutes of the August 14, 2025, Meeting Page 4 of 5

- 920 Pump Station. Tierra Rejada tanks identified in 2008 Master Plan, again in 2022. Only pressure zone that we cannot pump from our own system to the area.
- We need Edison service at tank sites. Solar is adequate, but now we want to do active mixing, transmit faster, therefore we need Edison services.
- CIP vs O&M Projects: new/replacement, increased capacity or same level of service.
- Future Budget Options: Usually do match to import. Finding money is a challenge. No rate increase-cash reserves fall.
- Increase in water rates has outpaced inflation.
- 5. INFORMATIONAL ITEMS Provides the opportunity for the Director to present items that are not within the subject matter of the District's Staff Report
 - A. LOS POSAS VALLEY WATERMASTER rulings by the LPV Watermaster and LPV Policy Advisory and Technical Advisory Committees.
 - No real update, but John Demers is the new Executive Director for Fox Canyon Groundwater Management. He knows how to work with a lot of different agencies, specialty on environmental encroachment.
 - B. CALLEGUAS MUNICIPAL WATER DISTRICT/METROPOLITIAN WATER DISTRICT OF SOUTHERN CALIFORNIA UPDATRE- An update on decisions
 - We have a couple of meetings and a couple of efforts, in part of the judgement. Work on the ASR System that Calleguas built. It kicks off next week. The Desalter Project kicks off soon.
 - C. BOARD LETTER TRACKER AN UPDATE ON VENTURA COUNTY BOARD OF SUPERVISORS AGENDA ITEMS RELATED TO THE DISTRICT - A status report on items the district may be presenting or has recently been presented, before the Ventura County Board of Supervisors. 8/12/2025 Receive and File Consumer Confidence Reports (Water Quality) 8/26/2025 FEMA/CAL OES Hazard Mitigation Grant
 - D. AVENUES OF PUBLIC OUTREACH
- 6. COMMITTEE MEMBERS' COMMENTS/FUTURE AGENDA ITEMS
 - Reddy brought up Calleguas having a meeting about the water supply.
 District 19 is also interested in this meeting. We can have Calleguas do a joint meeting at the Calleguas site. Is everyone okay with this?

Minutes of the Ventura County Waterworks District No. 1 Moorpark Citizens' Advisory Committee Meeting Ventura County Water and Sanitation Department Minutes of the August 14, 2025, Meeting Page 5 of 5

• Jeff had one question, next meeting is scheduled for October 2nd, and we would like to have the meeting on Tuesday, September 23? Everyone is in agreement. We will send out advance notice.

CALL TO ORDER

The meeting was called to order by John Newton at 3:29PM.

APPROVAL OF THE MINUTES OF: Meeting on August 14, 2025, John Newton asked that we wait for next meeting to approve the minutes. Reddy/John would like to see the minutes simplified. We will be recording the meeting and if a member of the public wants to hear the meeting they can listen to the recording. The minutes should be with decision/action items only. John asked that the action items on the agenda be bold. No minute approvals were made at this meeting.

3. PUBLIC COMMENTS

- 4. DIRECTOR'S INFORMATION ITEMS
 - A. WATER RATE PRESENTATION

Minutes of the Ventura County Waterworks District No. 1 Moorpark Citizens' Advisory Committee Meeting Ventura County Water and Sanitation Department Minutes of the September 23, 2025, Meeting Page 2 of 3

Review of water flow/costs. Projecting 10% for 2026 and review of 7.4% for 2027-2031. Next meeting we will show tier model project list finance numbers. (i.e. projected 10-year, 5-year).

Is there a way to analyze the cost of service for agriculture as is for residential? John would like someone to get back to him on possibly adjusted water rates for agriculture.

10% rate increase recommendation has been recommended by Reddy Pakala with comments, next year he would like to see more of a detailed analysis for the allocated expense increase. More than just a proximation of the percentage above the Calleguas rate increase, as to how the 10% increase was derived. Reddy Pakala makes a motion to approve and Michael Smith second the motion. All Committee Members voted in favor of the 10% increase. Vote: Yea-5, Nay-0

5. DISTRICT STAFF REPORT

- A. BUDGET AND FINANCIAL REVIEW An update on the budget and financial status of the District.
 - Financial reviewed with the rate increase aligned.

ACTIVE CAPITAL PROJECTS REPORT - WATER AND SANITATION DEPARTMENT

Project Name	Phase	Target Date	Project Updates
Install UV Disinfection Modernization/Salt Reduction Equipment at Moorpark Water Reclamation Facility (MWRF)	Bid	Winter 2025	UV equipment delivered to MWRF. Bids opened 11/20/2025. Low bid 5.6M (Eng Est 5.7M). Planning to award 12/16/2025. DWR Grant deadline extended to 6/2026. Staff requesting bridge loan from County.
Upgrade Recycled Water Pump Station No. 1 at MWRF	Bid	Winter 2025	Combined into UV Install Project.
Construct Concrete Basin #3 Lining at MWRF	Design	on hold	95% complete. Consultant revising 95% design. Priority, time, and budget constrained by UV and PS No. 1 projects.
Stormwater Diversion & Groundwater Recharge Facility at MWRF	Feasibility Study	on hold	Consultant finished groundwater recharge concept study. Percolation efficacy fell well below target. On hold due to staffing constraints, project likely to be withdrawn.
Construct Steel Structure Storage Building at MWRF	Design	on hold	90% complete. Engineering Service Department ready to resume design consultant for 90% Design when budget is available.
MWRF Solar Expansion (SCE Meter #2)	Design	Fall 2025	Building Permit issued, ordering materials, SCE tap connection on 12/8/2025. Construction anticipated complete by 3/31/2026. Tight grandgathered deadline: Permission to Operate submitted to SCE by 4/14/2026
Construct Left-turn lane on HWY 118 to MWRF Entrance	Design	on hold	30% complete. Contract Modification with Designer, Environmental study has to be completed. Staffing constraints with PWA Roads.

Construct New Stockton Reservoir at Stockton Road	Right-of- Way Acquisition	on hold	Land offer rejected for latest site targeted. Project returns to concept stage: locate site, prelim engineering, acquire land rights, complete design and soils engineering, construct. Staffing and budget constraints.
Construct Well 99 Facility (APN 503-0-030-075) at Stockton Road	Design	-	Consultant design contract approved by Board 6/3. Completed site survey; research and data gathering for Consultant. Staffing constraints.
Rehabilitate Well 20 at Championship Drive	Bid	Fall 2025	Bids opened 11/6/2025. Low bid 544k (Eng Est 629k). Planning to award 12/16/2025.

4. DISTRICT STAFF REPORT

PROJECTS UPDATE

District 1 Projects Updates

December 11, 2025 CAC Meeting

Installation of New Solar Arrays for Reclaimed Water (RW) Pump Station (PS) No. 2

Objective:

- Installation of a 410.9 kilowatt (kW) photovoltaic (PV) system.
- Increase on-site renewable energy production.
- Export peak hour production under a new Net Energy Metering (NEM)
 2.0 agreement with SCE.
- Cut operating costs.
- Protect ratepayers from potential annual rate increases by SoCal Edison (SCE) and the Clean Power Alliance (CPA).

Background:

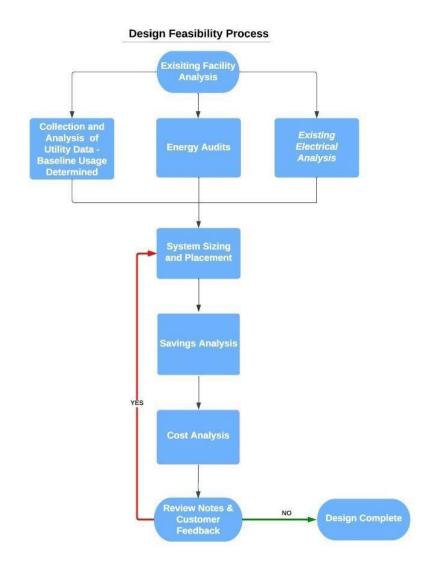

- MWRF is provided electricity through Southern California Edison (SCE) two meters onsite.
- The main meter is currently offset by an existing PV system. There is a 2nd meter for Reclaim Pump Station #2.
- The 2nd meter consumes roughly 636,927 kilowatt hours (kWh) annually under normal load conditions (\$142,128 in 2022).
- These new solar arrays will help offset the current load of the 2nd meter.
- The planned 410.9 kW PV system is estimated to produce 624,368 kWh annually which translates into roughly a 97% offset.

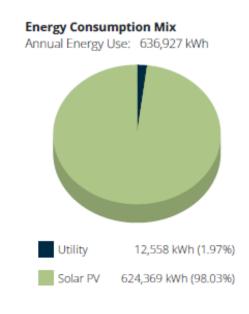

Feasibility Study:

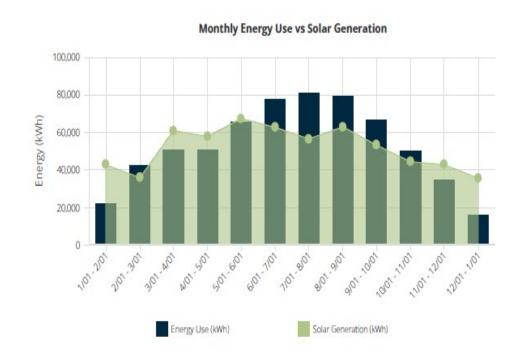

- Audit of existing facility;
- Analysis of baseline usage and estimation of future consumption;
- Evaluation of the system size based on available site land, utility infrastructure, and economic benefit;
- Evaluation of existing electrical infrastructure and recommendation of any upgrades required;
- Technical design review for the project;
- Investigation of grants, incentives, rebates, and loan applicability;
- Delivery of a cost-effective renewable energy solution to meet MWRF's needs.

Feasibility Study Results:

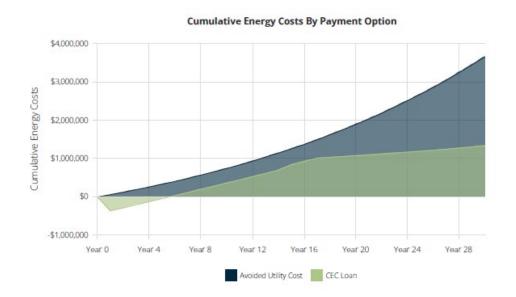

Meter No. 2 – PV System Details

Financials:

- Project Elements: Grading,
 Construction, Engineering, Project
 Management, etc.
 - ▶ Total Project Cost: ~\$1.8M
- Direct Pay, Investment Tax Credit (ITC) – 30%
 - ► Total Incentive Value: \$440,975
- California Energy Commission, Energy Conservation Assistant Act Loan (ECAA)
 - ► Loan at 1% fixed interest over 17 years
 - ► Total Loan Amount: \$1,028,942
- Cash flow over 17 years for repayment of loan includes
 - ► Yearly Loan Payments: \$66,118
 - Cumulative Payback: \$1,124,006

Over a 30 year PV system lifetime, and a 5% annual energy cost escalation, the cash flow shows an Estimated Savings of \$3,658,720.

MWRF Solar Expansion

Progress to Date:

- Design Finalized,
- ▶ Pond #29 (solar field site) graded
- Pull Testing Complete (pile date)
- Building Permit issued

Questions?

Notes

Regarding the Big Beautiful Bill: the OBBBA, signed into law on July 4th, 2025, has made some changes to the IRA-ITC, particularly Sec. 70513. Phase-out and restrictions on clean electricity investment credit (48E) - Wind and Solar: Credit terminates for facilities placed in service after December 31, 2027 - Exception: Projects beginning construction within 12 months from enactment date(July 4th, 2025) are exempt from the December 31, 2027 placed-in-service requirement.

O&M Efficiency Improvements

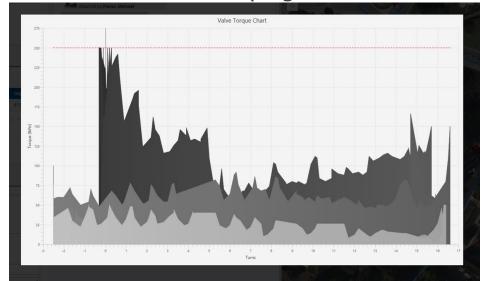

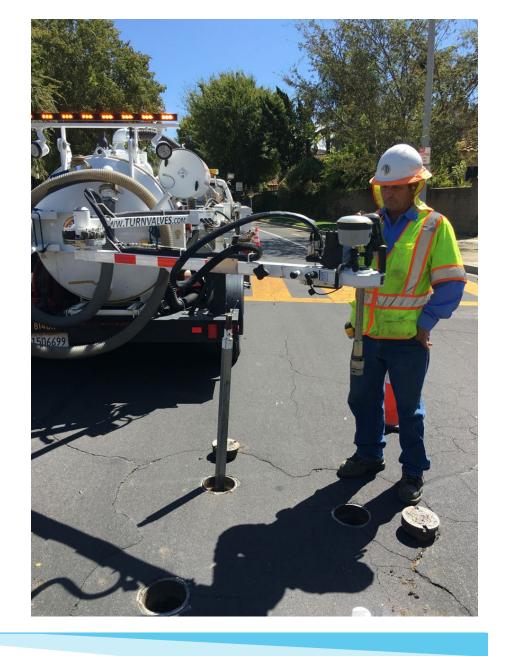

Wach's Valve Exercising Machine

District 1 has approximately 4,485 valves

- Before the valve machine, exercising valves by Hand would take about 2 years to complete cycle.
- With Valve machine, it's completed in approximately 11 months.
- It's safer, speeds up the process, ensures consistent effort and better record keeping.

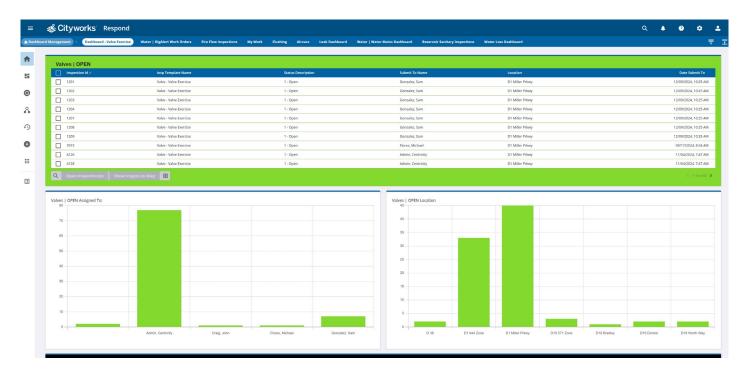

Example of high torque valve. Torque of 150lbs of more will require two operators to turn the valve by hand. Valves with 150lbs torque or more are exercised more frequently.

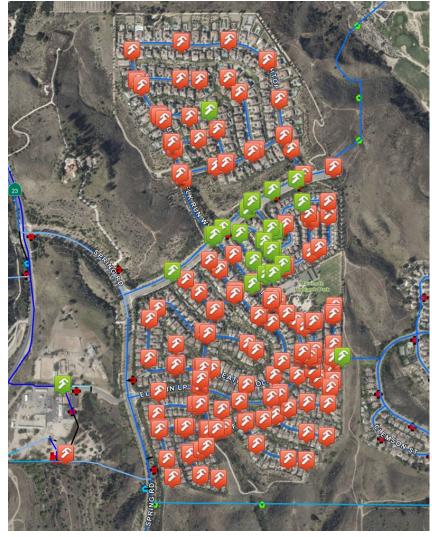

CityWorks- Asset Management

Asset management and GIS help water operators by giving them clear visibility of their infrastructure, improving maintenance planning, and enabling faster, more accurate responses to leaks, repairs, and emergencies.

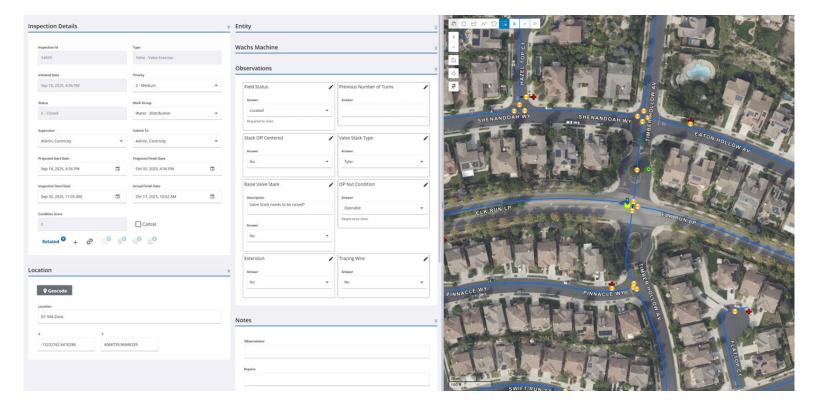

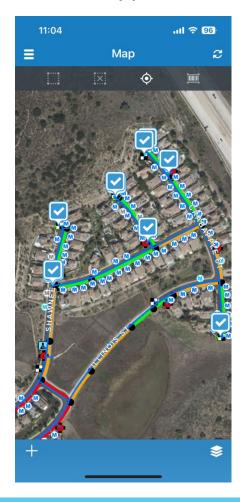

Cityworks- Workorder and Inspections

Workorder and Inspections allow record keeping to ensure accurate tracking of asset history

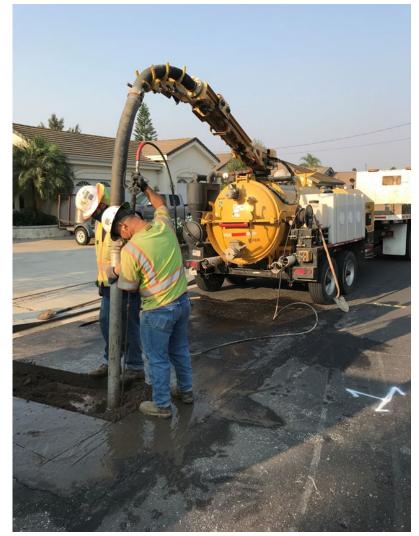

Mobile App Version

Hydro Vacuum Excavator

A hydro vacuum excavator uses high-pressure water and a powerful vacuum system to safely and efficiently expose water lines, utilities, and other underground obstacles.

Mini Excavator vs Backhoe Footprint

A mini excavator's smaller footprint makes it ideal for tight spaces, whereas a backhoe requires more room to operate, often reducing the need for extensive traffic control and minimizing public disruption.
