HOW TO SUBMIT COMMENTS

To submit a comment after the meeting:

- Visit the project website and complete the comment form:
publicworks.venturacounty.gov/wpea
- Send an email to VenturaCounty_WatershedPlan@olsson.com
- Write to Stacey Roach, Olsson, 601 P Street, Suite 200, Lincoln, NE 68508

COMMENTS ON THE PROJECT WILL BE COLLECTED THROUGH OCTOBER 11, 2026.

STUDY AREAS

ROBLES DIVERSION AND FISH PASSAGE FACILITY/MEINERS OAKS FLOOD PROTECTION

CASITAS SPRINGS LEVEE

LIVE OAK ACRES LEVEE

STUDY AREAS: CASITAS SPRINGS LEVEE

STUDY AREAS: ROBLES DIVERSION AND FISH PASSAGE FACILITY/ MEINERS OAKS FLOOD PROTECTION

STUDY AREAS: LIVE OAK ACRES LEVEE

WATERSHED MAP

ROBLES DIVERSION AND FISH PASSAGE FACILITY PROJECT AREA MAP

PURPOSE & NEED

The purpose of the Ventura River Watershed project (project) is to **reduce the potential for flood damage** from the Ventura River within the project area, and to **improve agricultural water management** to support long-term agricultural viability, consistent with the authorized purposes of PL 83-566.

The project is needed to reduce **risks to life, property, infrastructure, and agricultural resources** within the project area, including the communities of Meiners Oaks, Casitas Springs, and Live Oak Acres, and to **enhance the delivery of water** to support agricultural operations within the project area. **Aging and deficient flood control infrastructure** has been an extensive and costly management issue in the project area due to flood events and ongoing sedimentation in the Ventura River.

SCHEDULE

Task	Date
Scoping	In progress
Scoping Meeting	September 10, 2026
Prepare Draft Watershed Plan-EA	Now until January 2027
NRCS - California Review	April 2027
NRCS - National Watershed Management Center Review	July 2027
NRCS - Programmatic Review	November 2027
Public Review (30-day comment period)	December 2027
Public Meeting	December 2027
Publish Final Watershed Plan-EA/FONSI	February 2028
